

I feel quite strongly the need for a "No Call List" like Wisconsin's No Call List. Getting rid of or diluting this type "List" severely impacts our freedom to enjoy ourselves without the many interruptions. Speaking from experience, once my name fell off the No Call List, the calls started pouring in... up to 15 a day. I'm sick of it. The only recourse I have now is to use my caller ID feature and.. not answer the phone. I've just signed back up for the Wisconsin No Call List and will patiently await April 1st. Please leave the Wisconsin No Call List in tact.

Thank you.
